Great and noble history for this design by Dick Carter who personally dedicated himself to its birth. A wooden prototype was made from which the mold of the Orca 43 in fiberglass was derived at the Sailboat shipyard, which then became the Cantiere del Pardo dei Grand Soleil in 1974. One of the first four Orca 43 was purchased by Raul Gardini (the one from Moro di Venezia) who competed successfully in the Mediterranean Championship and the Middle Sea Race. Very particular: very slender bow and completely flush deck. Unusual.
