Gargantua is a two ton racer-cruiser (TWO tonner II class IOR). This boat was born from the happy union of the genius of the naval architect German Frers who designed it and the skill of the shipwright Arrigo Petronio who built it in his shipyard in Trieste.

It is a fast and comfortable hull built in laminated wood, with six comfortable single beds plus two berths in the dinette, a separate bathroom with sink and toilet and a full galley equipped with fridge.

Between 2019 and 2022 the boat was completely restored with works done to perfection and using excellent materials.

Recently this TWO tonner II class IOR has joined the vintage boat regatta circuit in the IOR CLASSIC class, which makes the purchase a real bargain.
